Source Description: [REDACTED]

"The Belgian Ministries of Traffic and Ways, Public Works and Civil Defense have decided to make a start with the building of a road Antwerp-Rhine, which will connect directly Antwerp with Cologne. The first undertakings will be in the Liege area, where the roads Antwerp-Liege-Aix la Chapelle and Brussels-Liege will meet. This measure has been favourably welcomed in Antwerp, as it will certainly contribute to the intensification of the Antwerp harbour traffic."
